through collaborative tools*

Provider Connect

EMR agnostic, HIPAA compliant, cloud based coordination of care platform that offers a secure way for providers to coordinate their patient's care across the healthcare continuum.

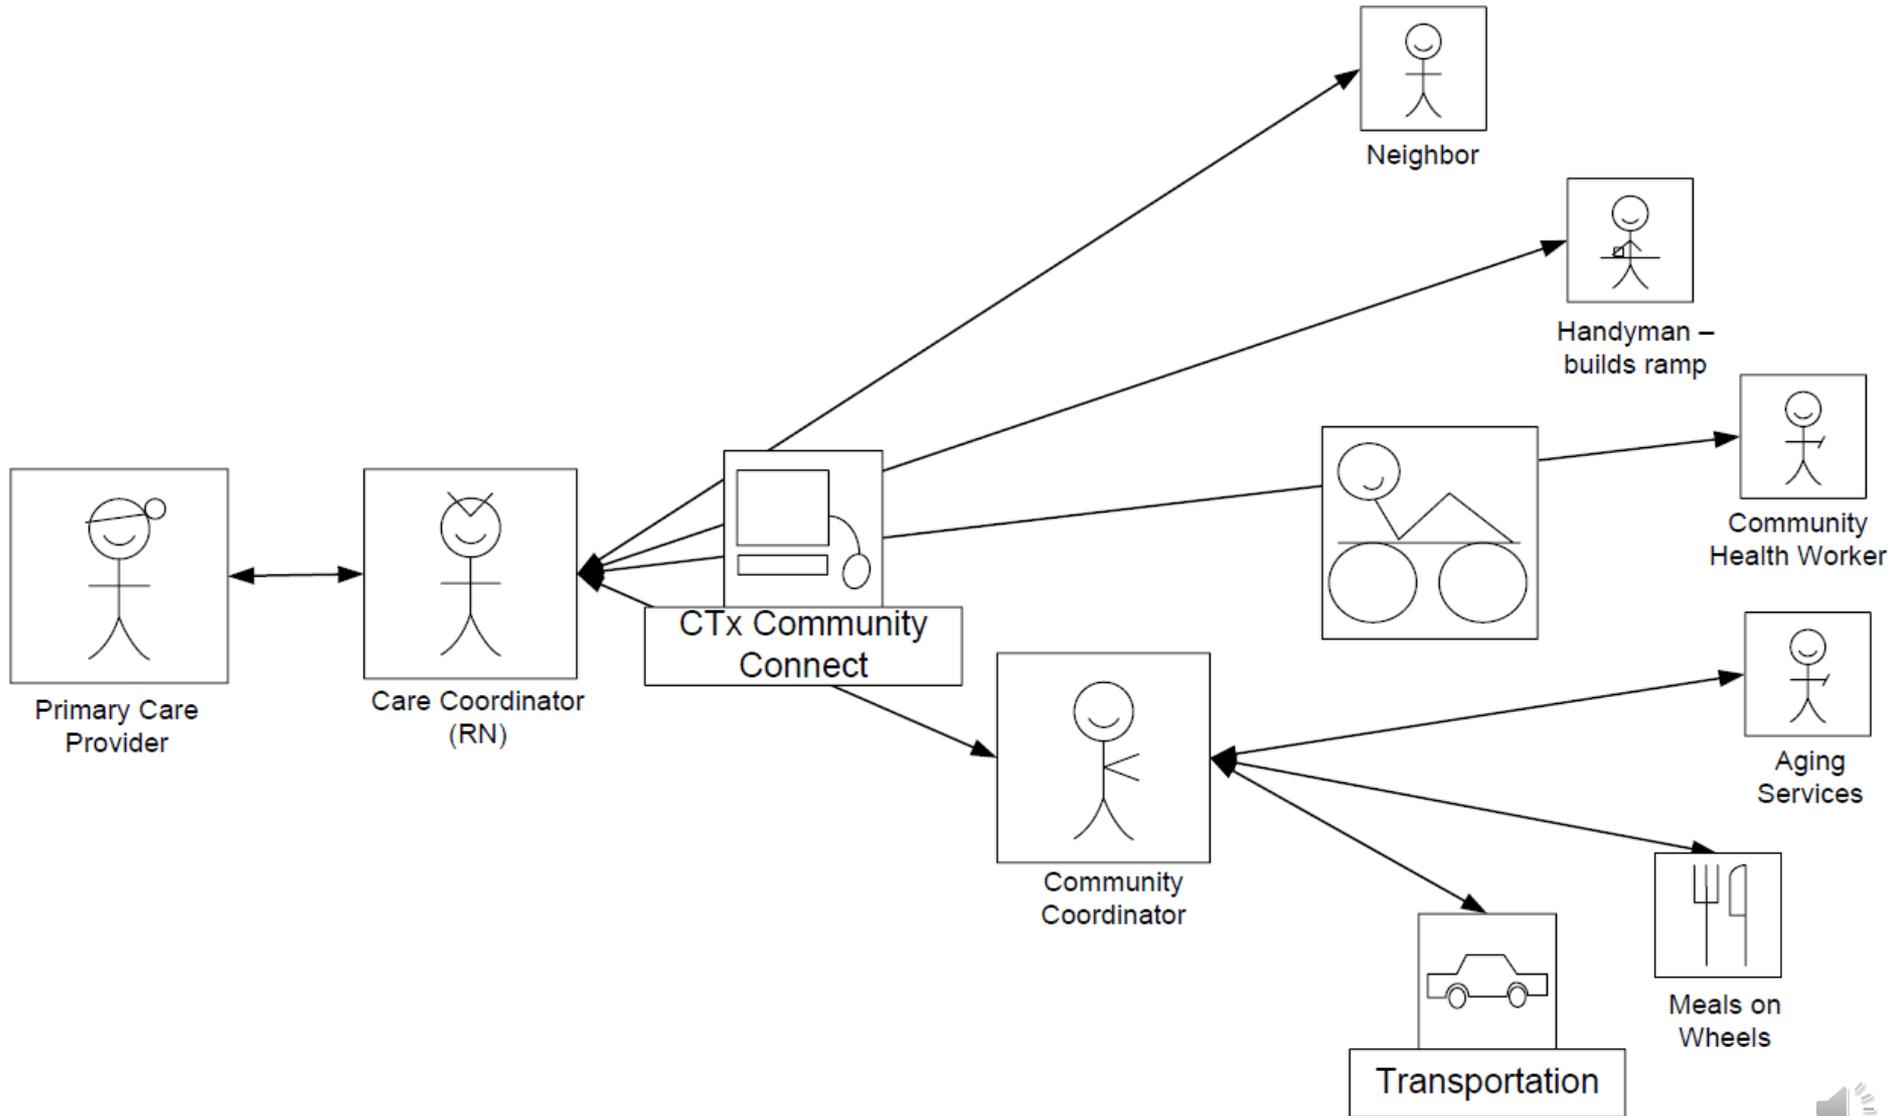

Community Connect

Provides care coordinators a tool to coordinate care with entities that are not considered traditional healthcare providers, yet are directly involved in the overall health of a patient.

Communication to and from community health resources involved in a patient's care to the primary care provider is important to the overall care of the patient.
